

## PhD Assistance

1. PhD
2. Assistance in Synopsis/Proposal preparation
3. Assistance in Article publication
4. Training for capacity building in research work

### 1. PhD

#### 1.1 About PhD

PhD is the dream of those who wish to specialize in their desired field of academic interest. Its highest level of academic qualification. PhD holders are highly valued and respected. But, many students experience challenges while pursuing doctorate research.

The challenges exist as they have lots of changes going on with their life. They have to fulfill their role as an employee, look after their family and focus on their academic sector at the same time. However, it is necessary for PhD students to acquire in-

depth knowledge about the research process, use of academic language, sound methodologies, and analytical skills. Global Star Education Foundation Training and Research Center (GSEF) offers you guidance on fulfilling your dream of completing PhD in the related discipline.

#### 1.2 Counseling about PhD

*We counsel you on the following aspects:*

- To select the best universities
- To know the background information e.g. universities, country, courses, legal aspects and equivalent process etc.
- To prepare for entrance examinations to take admission for PhD
- To select the research topic for PhD
- To prepare for synopsis
- To prepare for thesis report
- To write article
- To participate or present the paper in international or national conferences

- To publish the article in national and international journals
- To complete the thesis submission process
- To prepare for the final thesis defense and viva voce

### ***1.3 Assistance in PhD Admission***

We help you to pursue the PhD by assisting you in getting admission. GSEF facilitates the student to get admission in the renowned universities of national as well as international level. We have a connection with more than 20 universities in India, Australia, China, Bangladesh, Thailand and Japan. Considering international universities we also have proposed to get connected with universities from the UK, Canada, Australia, China, Bangladesh, Thailand and Japan. We forward your documents to the university on time and work as a liaison for the approval of the proposal from the university.

### ***1.4 Assistance in PhD thesis***

#### **1.4.a Topic selection**

Choosing the topic for thesis in PhD is a difficult task to do because it requires hard work and years to accomplish the thesis. Students can often find it frustrating to select the topic of their interest. But the research team of GSEF will assist you with brainstorming sessions to select the suitable topic for your PhD thesis based on your interest and knowledge.

GSEF research team provides you with a list of topics that interest you based on your academic sector or profession. We help you to narrow down your topic of interest by brainstorming and help you select the topic which is best for your thesis.

#### **1.4.b Mentoring for PhD research/thesis proposal**

After the selection of a suitable topic, you need to write a research proposal which is the most important part of accomplishing your PhD. Research proposal guides you to complete your thesis due to which it should be written properly. However, writing a research proposal is not an easy task as it requires rigorous time for extensive literature review, preparing methodologies, and developing research instruments. All PhD scholars do not have sufficient time for these all processes due to different busy schedules. Our GSEF research team is here to help you assist in writing a good research proposal based on your university guidelines.

#### ***1.4.c PhD viva process***

PhD viva is compulsory in the examination process. We assist you to demonstrate the work of your thesis, develop your ability to defend verbally to both your internal and external examiner. In addition, we also explain to you the purpose and format of the viva voce examination to prepare you for completion of your doctoral degree successfully.

## **2. Assistance in Synopsis/Proposal preparation**

### ***2.1 Topic selection and setting objectives***

GSEF provides you with various topic that interest you for your synopsis. After selection of topic we help you to set the objectives to guide the entire synopsis. It can be difficult to set the objectives. So we assist you to set the suitable objective based on your thesis topic which will make your synopsis strong.

### ***2.2 Literature review***

Student often faces difficulties while writing the literature review. A good literature review helps to identify the research gap in the literature of related topics which provides a critical review of your literature review. Our research team provides you with assistance in the literature review to make your synopsis evidence-based. Your synopsis will be written based on scholarly articles, books, and other sources as applicable to your topic.

We use different relevant databases such as PubMed, Scopus, ScienceDirect, and others available in online sources and search for the literature.

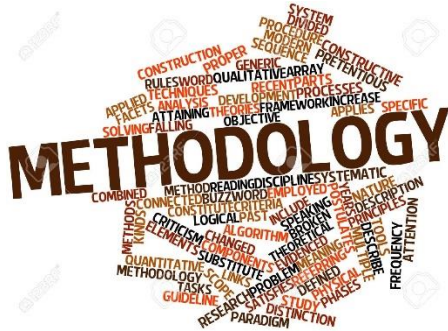

We will search for the related review, evaluate the sources, recognize the themes, debates, and gaps, outline the review structure and write your literature review.

### ***2.3 Methodology***

This section demonstrates the methods or approaches chosen to test the hypothesis, analyze the data, and will attain the research

objectives. In this section, it is to be clarified which approach experimental or comparative will be used to yield the expected results.

We assist you to prepare the suitable research design based on the qualitative or quantitative nature of the study. We also help you to decide the sampling method or technique and plan for getting sample from given population. In addition, we also determine the sample size based on the kind of research work. We also discuss the primary data collection methods as well as secondary data collection methods based on the research designs. This way we offer you with assistance to prepare sound methodology.

#### ***2.4 Development of questionnaire***

A research thesis cannot be completed without a good questionnaire because it determines how the research report turns out to be. Questionnaires of various forms are used for the collection of information from

the respondents or the target group of the research.

Having a well-designed questionnaire ensures that you have the appropriate information which you need for developing the thesis and reaching the correct conclusion. However, preparing a perfect questionnaire is easier said than done. We are well aware of the qualities to design the questionnaire for your thesis. We support you with this task of designing a suitable questionnaire for your research study to meet the research objectives. We have a team who can help you in designing a relevant questionnaire after carefully studying the nature of your research.

#### ***2.5 How do we develop a questionnaire?***

- Our team first checks the need to collect qualitative or quantitative data and suggests the kind of questionnaire tool that would be suitable for implementation.
- We assist you in creating the closed- and open-ended questions which collect the right data for your specific study.

- We make your tool reliable and valid.
- We prepare the questionnaire in simple and lucid language, which is easy to understand and unambiguous.

## 2.6 Statistical analysis

Our team assists you to select the relevant analytical tools and techniques, which are chosen after gaining a complete understanding of the research design and methodologies. Our team also helps scholars gain an understanding of the analytical process so that they can handle queries by the university board. Here are some of the tests that are conducted by our statisticians:

- T-test
- Chi-square test
- Wilcoxon-Mann Whitney test
- ANOVA
- Fisher's Exact test
- Kruskal Wallis test
- Correlation
- Wilcoxon signed ranks test
- Regression analysis (simple and multiple linear)

## 2.7 Thesis writing

After the approval of your proposal from the university, we also assist you in the data collection procedure.

Once the data collection is completed we will guide you to export them to the data analysis software. After the analysis of the data, we help you in completing your thesis report by assisting in the result and discussion section. We also offer help in making your thesis report technically sound and free from grammatical errors.

## 2.8 Latest referenced sources

Your synopsis must end with a list of compiled references and if necessary, a bibliography, in a standard pattern.

GSEF research team uses software to prepare the list of references based on the format of your university.
